

Privacy Policy

Information Gathered on This Site

This site generally stores no information about its visitors, with the exceptions of basic logging for site statistics (and then only machine addresses, not personal email addresses), and information provided by visitors who fill out on-line applications, surveys, or requests.

On certain pages including the Anchored-In-Knowledge Newsletter, visitors are given the option of providing their names, addresses, phone numbers, email addresses, personal information, and various other kinds of details. This more personal information is not gathered without visitors knowing and providing active permission and participation.

This site does not monitor private communications or make any use of such communications.

This site does not display or make available visitors' personal information, such as contact information, even if it is already publicly available, to any person except the user himself or herself, except at the request of the user.

This site does not retrieve personal information from the visitor's computer that was not originally sent to us or by us.

Támara Hill, MS, NCC, LPC-BE and Web-Team Associates are the sole owners of the information collected on the Anchoredinknowledge.com.

Cookies

A cookie is a piece of data stored on the user's computer tied to information about the user. My website uses persistent cookies. A persistent cookie is a small text file stored on the user's hard drive for an extended period of time. Persistent cookies can be removed by following internet browser help file directions for "removing cookies". If you are using Windows, you can go to you control panel, click on Network and Internet settings. Click on Internet options. You will now be in the "general" tab section where you can scroll down to "browsing history" and click on "delete. You want to ensure that your cookies tab is checked.

Log Files

Like most standard web site servers, we my website uses log files. This includes internet protocol (IP) addresses, browser type, internet service provider (ISP), referring/exit pages, platform type, date/time stamp, and number of clicks to analyze trends, administer the site, track users' movement in the aggregate, and gather broad demographic information for aggregate use. This data is not linked to personally identifiable information. It just keeps track of IP addresses and other similar data.

Browser Check

The information you share with web sites is only as safe as your web browser. It's important to utilize the appropriate browser settings and security settings to ensure you've got the latest, most secure Web browser.
